

GOING GREEN FOR CHARITY

MECA

PRESENTS

A Microfiber Green Cleaning System

- ✓ Better indoor air quality is achieved by superior dust and dirt containment.
- ✓ Source reduction – LESS WATER – LESS CHEMICALS
- ✓ Lasts longer than conventional products.

Microfibers have created a revolution in the cleaning world, its impact besides being labor saving and cost saving, is environmental friendly. **Microfibers** cleaning products are precision cleaning tools with remarkable efficiency that allow cleaning on a microscopic scale. Thus, according to tests, using **Microfiber** materials to clean a surface leads to reducing the number of bacteria by 99% while a conventional cleaning material reduces this number by only 33%.
